

Allianz Euro Credit SRI - AT-EUR

Corporate bond fund following a sustainable and responsible investment (SRI) approach

Fund highlights

- Allianz Euro Credit SRI uses a fundamental investment process time-tested since more than 10 years. Our approach focuses on SRI best-in-class issuers selected on the basis of a proprietary SRI rating methodology identifying best and worst practices and combining these considerations with the qualitative assessment of our in-house Sustainability analysts.
- The portfolio construction is geared towards a superior ESG quality through minimum exclusions and positive screening. Both, financially material and non-material ESG factors are part of the analysis. The fund is actively managed and well diversified with typically over than 500 bonds, offering a granular portfolio in order to limit specific risk.
- Our SRI Strategy is consistent with the principles of sustainable and responsible investments, which are the two central factors aiming to address the sustainability risk and return of an investment in securities of an issuer. The term “sustainable” includes, but is not limited to, themes such as resource management, climate risks and natural resources scarcity (environmental factors), distribution of wealth, healthcare
